

Anuj Patel

Software Engineer

☎ +91 83198 25028 | ✉ contactanujkurmi@gmail.com | 🌐 anujpatel.tech | 🔗 linkedin.com/in/anuj-kurmi | 🐙 github.com/anujbijoria2020

Summary

Software Engineer with strong understanding of core computer science fundamentals including Data Structures & Algorithms, DBMS, Operating Systems, OOPs, and Computer Networks. Skilled in problem solving, backend engineering, REST APIs, database management, authentication systems, and scalable web application development using modern technologies.

Education

Indore Institute of Science & Technology

2023 – 2027

Bachelor of Technology in Computer Science & Engineering CGPA: 7.47 / 10

- Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, OOPs, Computer Networks, Software Engineering

Skills

Programming Languages C, C++, JavaScript, TypeScript, SQL

Core Subjects Data Structures & Algorithms, DBMS, Operating Systems, OOPs, Computer Networks

Development React.js, Next.js, Node.js, Express.js, REST APIs, WebSockets, Socket.io, JWT Auth, BullMQ, Redis

Databases & Tools MongoDB, PostgreSQL, Prisma ORM, Git, GitHub, Postman, Docker, Vercel, Render

Experience

Backend Engineer Intern

April 2026 – Present

Vednix Technologies, Indore

- Working on scalable backend systems, REST APIs, and production-level server-side applications.
- Contributing to backend architecture, database management, and API optimization for efficient performance.
- Collaborating with engineering teams to build reliable and maintainable software solutions.

Projects

NextStep AI | *React.js, Node.js, MongoDB*

- Built an AI-powered roadmap generator that creates personalized learning paths from user prompts.
- Implemented authentication, scalable backend APIs, and persistent roadmap storage.

IdeaNode | *React.js, TypeScript, MongoDB*

- Developed a second brain platform with AI-powered retrieval and secure note management.
- Implemented JWT authentication and modular backend architecture for scalable access control.

ScorePulse | *React.js, Node.js, WebSockets*

- Built a real-time sports commentary platform with low-latency live updates using WebSockets.
- Optimized backend communication flow for handling concurrent real-time user interactions.

SkillSwapNetwork | *PostgreSQL, Prisma ORM, Socket.io*

- Developed a skill exchange platform with real-time chat and secure authentication systems.
- Built scalable backend architecture using PostgreSQL and Prisma ORM for efficient data management.

Certifications

- IBM SQL Certificate** – Relational databases, joins, aggregations, and SQL querying concepts.
- C++ Programming Certificate** – OOP, STL, and problem-solving using C++.
